THEO. P. HAUGHEY, Pres't H. LATHAM, Cash.

CONDITION OF THE MARKETS

Various Influences Cause a Downward --- Tendency in the Prices of Wheat.

Corn Fairly Active and Steady, with Symptoms of an Advance-OMS Strong and Higher-Provisions Active in a Narrow Range.

MONEY, BONDS AND STOCKS.

A Limited Business in New York, with a Heavy to Weak Closing. NEW YORK, May 4 .- Money on call was easy at 14 22 per cent., the last loan being made

at 2, closing at 14 22. Prime mercantile paper, 526 per cent. Sterling exchange was strong and fairly act-

ive at \$4.86} for sixty-day bills, and \$4.88 for de-

The total sales of stocks to-day were 249,027 shares, including the following: Delaware, Lackawanna & Western, 27,600; Erie, 17,350; Lake Shore, 9,600; Louisville & Nashrille, 3,400; Missouri Pacific, 8,250; Northern Pacific, 5,624; Northern Pacific preferred, 18,-160; Oregon & Transcontinental, 13,300; Reading, 38,800; Richmond & West Point, 18.960; St. Paul, 20,230; Union Pacific, 11,570; Western

Union, 7,940. Almost all the vim seemed to bave departed from the stock market to-day, and the total sales for the day were the smallest that have been seen for over two weeks, while the interest in the speculation was at the lowest ebb for more than that time, the traders having the making of quotations in their hands most of the day. As a consequence the final prices are in most cases lower than last evening. As usual, the market showed more strenth during the forenoon, and, notwithstanding the fact that London was a seller, which has begun to show in the rates for sterling exchange, the outside orders to buy on the decline from commissionhouses gave the market strength, though the usual feverish and unsettled appearance accompanied the rise. Later in the day the market was raided, presumably for the purpose of affecting the London market to-morrow morning. and the early advances were, in almost every case, wiped out, the demand for stocks having some to an end. The "short" interest shows no signs of decreasing, however, and there is still a general bullish feeling which acts as a back log to the market. Missouri Pacific was the leader of the morning's advance, while the pressure was specially severe in the afternoon upon Union Pacific and New England, though the latter was fairly strong in the forenoon. Kansas & Texas and Louisville & Nashville were also prominently weak, and both show material losses this evening. The opening prices were very irregular as compared with last night's figures, but with active trading prices moved up from the first sales, and Missouri Pacific early became the leader of the advance. The animation disappeared quickly, however, from the specula-tion, and little progress was made after the end of the first hour, and soon after 12 o'clock the course of the market was changed, though there was no apparent movement until toward the last bour, when Union Pacific and New England showed marked weakness, and the rest of the list followed. The activity in the last quarter hour was greater than at any time after the first hour, and the market finally closed heavy to weak at or near the lowest prices reached for most of the list. The advances recorded are

very few and for small fractions only, but Union Pacific lost 11: Kansas & Texas, 11: Louisville & Nashville, 1 per cent., and Alton & Terre Haute a like amount. The railroad bond market was quite active, the sales amounting to \$2,204,000; but of this Fort Worth & Denver firsts contributed about one-fourth, or \$489,000. The advance in these bonds continued, and they rose 2 per cent, to 89, but reacted sharply 1 per cent at the close. The rest of the list were firm to strong throughout the day, and almost everything is higher tonight. It was announced to-day that the Wheeling & Lake Erie forty-year 5 per-cent. loan offered in London on Saturday had been sold, the subscriptions being largely in excess of the amount offered. The proceeds are to be applied to the construction of the extension to Wheeling. W. Va., throughout the coal measures of the Pittsburg, vein. The most important advance to-day includes St. Paul, I. & D. extension sixes, 3. to 127; the Chicago & Pacific division sixes, 22, to 123; International firsts, 32, to 1024; Lake Erie & Western firsts, 2, to 110, and Kan-

sas Pacific consols, 2, to 110. Government bonds were quiet and firm. State bonds were dull and steady. Closing

Butter quiet and easy; Western, 18@27c. Cheese dull and heavy.

CHICAGO. May 4.—There was quite a change of sentiment in wheat to-day. The rains of last night refreshed the "bears" in proportion as it improved the crop prospects; then, too, cables reported a downward tendency at Liverpool. These influences induced the local crowd to sell Wheat at the start, but the clearances at New York were reported at 388,000 bushels, and they turned buyers. Later, when it was found that elearances should have read 38,000, the "bull" fever was suddenly checked and trade became quite dull. July opened at 834c, sold off to 834 @834c, reacted to 834 @834c, and again eased off to 834c. There were no orders from outside, and a steady stream of small lots of "long wheat came on the market, causing July to sel off steadily until it reached 83c. Toward the close there was a reaction and July rested at 83 c. The corn market opened with fair activity and steady prices, followed by an advance of 10 c for all futures except May. For the month there was a special demand and eager buying by a few houses, and the price went up quickly from 57c to 58c. The pressure was relieved by liberal sales, and the price settled back to 57 c, and closed at 57 c. July sold up to 56e early, then back to 55 @ 55 c, and closed at 55 c. Oats were stronger, on the whole, than any other cereal to-day. Opening prices were ic higher for June and July. May opened and closed at 33ic. July sold down to 32ic and up to 32ic, closing at 32ic bid. The provision market was active, but values were confined to a narrow range. "Shorts" were anxious to cover their lard and short ribs, and orders for 3,000,000 pounds were said to have arrived from Baltimore. The execution of them caused prices to advance .05c. "Long" stuff came out freely on the appreciation, and the advance was lost. Parties who have recently bought lard on foreign orders had orders to sell, and let the chief buyer have over 500 tierces. Early sales were at a slight advance, but the increased offerings caused the appreciation to disappear. Sales for July were at 8.174 28.25c, closing at 8.22½c. June short ribs sold at 7.42½ @7.50c, and closed at the outside. Mess pork received moderate attention; July sold at \$13.87½

DUN & CO.'S BUSINESS REVIEW.

A Generally Hopeful Feeling, Though the Facts Are Not Particularly Encouraging. NEW YORK, May 4 -R. G. Dun & Co., in their weekly trade review, say: It makes all the difference whether the situation is observed by a prophet or a photographer. The streets are full of prophets who see sure indications, favorable or unfavorable, and the prevailing impression regarding the future is decidedly hopeful. But the facts as they stand disclose an uncertain state of business; slight improvement in some branches, increasing depression in others, but hesitation and waiting on all sides. The net result has been a little advance in prices of securities, with a considerable decline in prices of commodities. Anxieties about money have been dispelled by treasury purchases of bonds; but it is still un-certain whether the Secretary will be able much longer to get enough bonds to prevent accumulation of money. The prospect of a reduction of revenue does not increase. At interior towns money is generally in ample supply for the existing demand. The reports of trade from interior points are not enthusiastic. Inactivity or quiet is the prevailing feature, with more frequent complaints of slow collections. Bank clearings outside of New York continue to slightly exceed those of last year, but less than the difference in prices, which implies the transfer of a slightly smaller quantity of prod-

Speculation in wheat has been rather active, but the net advance in price was only } of s cent, with the same in corn, while oats declined a cent. Reports of injury to wheat have become more definite, but the telegraph brings news of extensive rains at Denver, Omaha, Mil-waukee, and in California. Pork products, hogs and cotton are a little higher, and oil has risen 11 cent. Coffee and sugar are unchanged.

The Southern supply of iron increases, and it is yet undetermined at what price in Northern markets the large new furnaces can afford to sell. Anthracite coal is stronger, production having diminished. The dry goods business is more hopeful, though the movement is moderate and prices unchanged. The general result of trading for the past month has been a decline of nearly 4 per cent. in prices of commodities as a whole, notwithstanding the strength in the grain and produce markets. Stocks are about 75 cents per share higher than a week ago.

The business failures during the past seven days number for the United States 209, and for Canada 25, or a total of 234, compared with 223 last week, and 182 for the corresponding week

of last year. TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points.

ST. LOUIS, May 4 .- Flour quiet and unchanged 3,000 bu; rye, 1,000 bu; barley. none.

Hogs—Market firm; common and light, \$425.45; packing and butchers', \$5.4025.75; receipts, 750; shipments, 1,370.

INDIANAPOLIS MARKETS.

INDIANAPOLIS, May 4. While trade continues rather slow for May. as the mouth advances further improvement may be safely looked for. Dry goods men are not complaining, yet their volume of trade, all things considered, is not what it should be. Were there as many houses this year as last the volume of business would be far from satisfactory. Prices on most lines of dry goods are steady, and there are no indications of an early weakening. Coffees are firm at the advance of Thursday, and a further advance would not be a surprise. Groceries are not moving out with the spirit and in volume as dealers anticipated, and would desire to see at this advanced period. There is, nevertheless, a considerable trade doing, though the proportions vary somewhat from day to day. In fact, there appears an irregular inquiry, a feature of the market that is not usual at this season, when all sections are expected to show their hands, and indicate their necessities until assortments are put in proper shape for prospective distribution and consumption. The produce markets are hardly as active as in the early part of the week. Receipts of strawberries were light yesterday, and prices jumped up \$1 per case. The fact is that they had got so low that it bardly paid to ship them here, and until fruit raised hearer home can be obtained higher prices are likely to rule than those of the early part of the week. Early vegetables were in light supply and very firm at the range of prices of some days past. Irish potatoes, cabbage and onions are in good demand; pota-toes steady at the prices which have prevailed since Tuesday. Druggists are having a good trade; prices on all articles they handle firm. The flour market is more active; prices firmer, but owing to the scarcity of wheat a good many mills are shutting down, Indianapolis mills only running one-half capacity. Provisions steady and moving out fairly. The hide market presents no new features; while active, prices do

not improve. GRAIN. There was a fair attendance on 'Change today, and the bidding was more spirited than on Thursday. The movement of grain through this market shows an improvement; also the local receipts. Inspections for past twenty-four hours are twenty-four cars against six cars for preceding twenty-four bours. Country offerings continue light and shipping demand is only fair. There is little doing in wheat, prices remaining about as yesterday. Local receipts are below requirements. Corn is quoted higher than yesterday, with demand principally for shipping. This market is now about on a shipping basis and receipts small. We may safely expect to see relatively higher prices. The white grades are still offering in excess of demand, and it will be some days before a change for the better can be expected. Choice Indiana vellow ear salable at 56c. In oats the local demand continues good. Shippers report a falling off of orders. On the call the prices bid are a fraction lower than yesterday. Jobbers here say it is impossible to get enough hay for their trade; the demand is therefore very good. On call the price bid for bran was slightly off, but the market generally is un-chauged. Track bids ruled as follows: Wheat-No. 3 Mediterranean....

No. 2 Red. Corn-No. 2 white..... No. 2 yellow...
No. 3 yellow...
No. 2 mixed...
No. 3 mixed...
Sound ear yellow... May.... Oats-No. 2 white..... No. 3 white 323
